To My Dear Friend Mirto,

Thank you and the Quartet Di Cannobio for making my change of command ceremony so memorable. You were the highlight of the day. I can not express how special it was to have you and the band grace us with your presence and delight us with your music. Please extend to the your friend at Victorinox how grateful we were to receive the beautiful Swiss knives. Every single person in my command was thrilled to have such a beautiful momento of the occasion of my change of command. I will treasure this thoughtful, special and beautiful present.

We look forward to when our paths will cross again, whether in Switzerland or the United States. I will always remember our time together and how special you made the day for Bill, Kate and me.

Sincerely,

C. G. RICCIARDELLO
